

Aparna Kohli - Combined Resumes

This document combines the professional experience and summaries from various versions of Aparna Kohli's resume found in the "Resumes" folder [cite: 1].

Professional Summary

- Senior Product leader with 12+ years building and scaling consumer and AI-powered products at Google, Meta, Amazon, and Myntra [cite: 1].
- Principal Product Manager with expertise in building complex, multi-surface platforms with regulatory and cross-country nuance [cite: 1].
- Deep expertise in designing for mobile-first, India-scale audiences and building AI personalization engines [cite: 1].
- Proven ability to own end-to-end product strategy, lead large cross-functional engineering organizations (40+ engineers), and develop PM teams [cite: 1].
- Background includes a computer science and data-driven foundation combined with an MBBS degree, providing a unique perspective on high-stakes, imperfect-data environments [cite: 1].

Professional Experience

Google Inc - Senior Product Manager (ML Personalization & Growth | Google One)

Aug 2021 – Present

- Lead ML personalization across the full Google One product suite, owning offer ranking, SKU recommendation, and content personalization with a team of 19 engineers [cite: 1].
- Drove +25% annual subscriber signups and +16% 3-month retained subscribers across ~90% of signup traffic [cite: 1].
- Pioneered content personalization using Gemini-generated strings ranked via Reinforcement Learning to serve contextual, persona-level reasons to buy AI plans [cite: 1].
- Influenced leadership to adopt a dual LTV + retained-subscribers goal framework, reshaping how ML engines optimize across revenue and growth [cite: 1].
- Launched a first-ever limited-time blanket-offer platform, reducing time-to-market from 3 months to 2 weeks [cite: 1].
- Built a SKU recommendation engine using contextual multi-armed bandits with price anchoring, delivering double-digit millions in incremental revenue [cite: 1].

Google Inc - Senior Product Manager (Local Ads & Discovery | Google Ads)

2024 – 2025

- Owned awareness and discovery products for local action conversions, leading a

- 12-member cross-functional team [cite: 1].
- Delivered discovery initiatives generating >\$100Mn in incremental ad revenue [cite: 1].
- Built measurement trust for large enterprise advertisers via insight tools, incrementality studies, and MMM data integrations [cite: 1].

Google Inc - Product Manager (Ads Security & Enterprise Identity | Google Ads)

2021 – 2024

- Product lead for Ads Security, reducing policy abuse by \$300M via feature-gating experiments on high-risk users [cite: 1].
- Led the enterprise organizational-identity product that untangled billing, user roles, and org hierarchies for large advertisers [cite: 1].

Technical Skills & AI-Native Working Methods

- **Technical Fluency:** Python, SQL [cite: 1].
- **AI-Native Approach:** Established systematic pre-meeting review workflows using Gemini to surface leadership concerns [cite: 1].
- **Prototyping:** Built end-to-end product submissions for internal AI hackathons using AI Studio, including a handwriting-recognition grading assistant and a healthcare record synthesis app [cite: 1].
- **Data Strategy:** Utilized AI-powered query assistants to synthesize product strategy inputs from disparate data tables [cite: 1].

Education & Background

- MBBS background, providing a genuine instinct for expert workflows and high-stakes environments [cite: 1].
- Based in Bengaluru, India, with a track record of leading cross-continent teams across IDC, Mountain View, London, and Menlo Park [cite: 1].
